Material:

Canax®: the inside consists of unbreakable polyester fibres for strength and stability, the outside is a combination of PVC and hemp. The hemp gives the material a completely natural and mat appearance. The PVC makes Canax® completely resistant to rust, frost and direct sunlight. It is also fire-retardant and stain-repellent. Handwoven, the unique craft appearance that results is part and parcel of the charm of the product. The inside frame is made of aluminium.
